

## Concept Mapping

Reflect on the example of Mr. King's story and what you have learned about the factors relating to obtaining an education. Then, using the diagram below as a guide, "map" the possible causes and effects of being unable to easily obtain an education in a community similar to the one he described. Feel free to add more 'causes' and 'effects' boxes. Some examples have been filled in for you. Think about how the 'effects' might become 'causes' in some cases.
